1. I do not wish to become pregnant now. One benefit of choosing a method of birth control is that I will be better able to delay a pregnancy until it is desired.
2. All contraceptives offered by this clinic have been explained to me. I may change to another method if medically recommended. In addition, I may stop using a birth control method if I wish to become pregnant. Instructions for the use of my chosen method have been given to me.
3. I have read the above (or have had it read to me) and have been given the opportunity to ask questions and received answers to my satisfaction. Being mentally competent, I assume full responsibility and release the local health department, including the attending clinician, staff and assistants of any and all liability for any adverse effects or pregnancy that may result from my using the method of birth control provided to me. I have been advised to call the clinic for discontinuation instruction if I choose to stop this method.
